

Seeking Prime Locations for Archer Hearing Centre

Tenant Services

Archer Hearing Centre is an independent audiology clinic specializing in comprehensive hearing care, including hearing assessments, hearing aid consultations, tinnitus management, and ongoing patient support. Founded by licensed audiologists, the clinic focuses on personalized care, transparent service, and long-term hearing health solutions for its clients.

The practice primarily serves mobile seniors aged 60+, many of whom live independently and regularly visit neighbourhood retail plazas for everyday needs. As a result, Archer Hearing Centre performs best in **high-visibility retail environments** rather than traditional medical office buildings. The clinic is seeking locations that provide convenient access for seniors and strong co-tenancy with daily-needs retailers.
